Description ▼

- Easy to transport due to small design and low weight of 4.5 kg
- Thanks to extensive standard accessories, it is extremely easy to transport only versatile in the body and commercial vehicle sector
- Additional accessories also available

User-friendly control concept

- Targeted and precisely dosed heat exposure within seconds thanks to state-of-the-art microprocessor technology
- Heating of parts to over 800 °C
- Easy and quick to operate
- High efficiency
- Avoidance of overheating
- High operational reliability through self-monitoring with optical status indication

Numerous application possibilities

- Dent removal of smaller hail dents without attacking the paint
- Removal of smaller coverings
- To loosen and remove sealants and fillers
- To loosen stuck and rusted parts such as screws, sleeves, seals, hinges, nuts and äsimilar
- Hardly accessible parts can also be loosened after heating by using and appropriately attaching special winding wire (e.g.e.g. axle parts, ball joints, sensors etc.)

Media informations

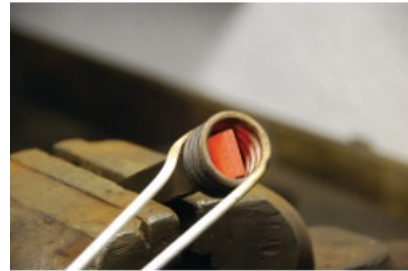

Loosening parts that are hard to access by using a special type of twisted wire

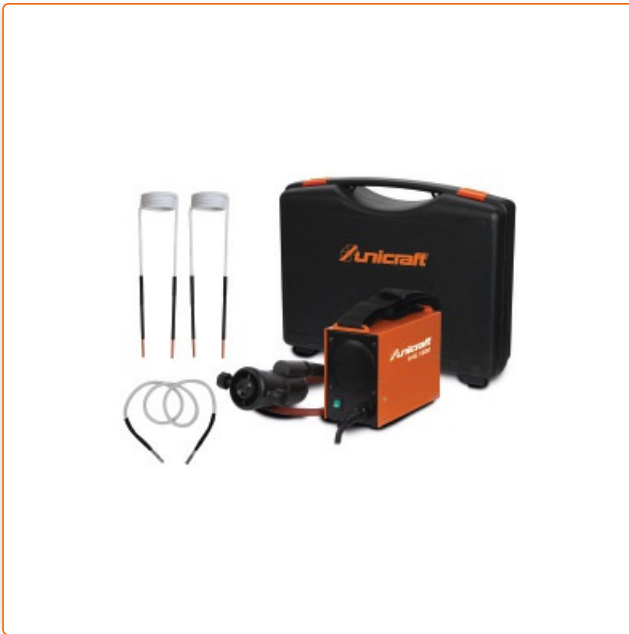

For heating and loosening jammed and corroded parts

Easily removing small trim panels

Removing rust

Technical data ▼

General features			
Power consumption	1.7 kVA	Output	1.5 kW
Output frequency	25 – 60 kHz	Degree of protection	IP 21
Dimensions and weights			
Length (product) approx.	200 mm	Width/depth (product) approx.	75 mm
Height (product) approx.	140 mm	Net weight approx.	5 kg
Weight of device	4,5 kg	Explanation about Weight	with accessory
Electrical Data			
Fuse protection	16 A	Supply voltage	230 V
Mains frequency	50/60 Hz
